

DENTAL IMPLANTS CAN BE A WAY TO GIVE YOU BACK YOUR QUALITY OF LIFE AND SELF CONFIDENCE

Testimonial from one of our patients:

"After much deliberation I decided to go ahead and have two implants and a bridge in the front of my mouth. I was extremely anxious about how much it was going to cost as I am not used to spending money on myself. I was given a detailed plan of how and when the work would be carried out through all the different stages. It has been worth every penny. I feel I can now smile again! It has made me feel so much more self-confident. They feel so strong; I now have no worries about what I eat."

The Old Bakery
Dental Practice

Part of the **the smile practice** Group
